Software Engineer

I've been writing software since 2007, professionally since 2014. I love building robust, well-engineered, and beautiful applications and coaching developers to achieve their best potential. I'm a software engineer from Quito, Ecuador. My goal is to help the software industry evolve by enabling developers and companies to practice valuable techniques and build powerful and durable systems.

Graphic Design Advanced Course

Instituto Superior de Diseño (ISDI)

Reference : http://www.altillo.com/universidades/cuba/Instituto_Superior_de_Disenio_Industrial.asp

City : Havana City

KEY SKILLS

Laravel v8.0, v9.0	Advanced
Symfony v4.4, v5.0, v6.0+	Advanced
NuxtJs	Advanced
VueJS	Advanced
ReactJS	Medium
CircleCI 2.0	Advanced
Travis CI	Advanced
GIT + GitFlow	Advanced
Responsive Web Design	Advanced
API REST	Advanced
GraphQL	Advanced
Elastic Search + Kibana	Advanced
Programming (PHP7+, Javascript)	Advanced
PHPUnit, Jest, Mocha, Pest (TDD)	Advanced
Database Design	Advanced
Webpack, Babel, Typescript, ES6	Advanced
CSS3, SASS, LESS	Advanced
HTML5	Advanced
Ansible	Advanced
Terraform	Advanced
AWS	Advanced
NativeScript	Advanced
Prestashop	Medium
Docker	Advanced

ATTITUDES

- ✓ Develop using Agile Softwares Methodologies such as: Extreme Programming(XP), SCRUM, Test Driven Development(TDD).
- ✓ SOLID Principles.
- ✓ Design Patterns (GRASP y GOF).
- ✓ Coding Refactoring.
- ✓ Monitoring Applications.
- ✓ Deployment Automation.
- ✓ Unified Modeling Language(UML).

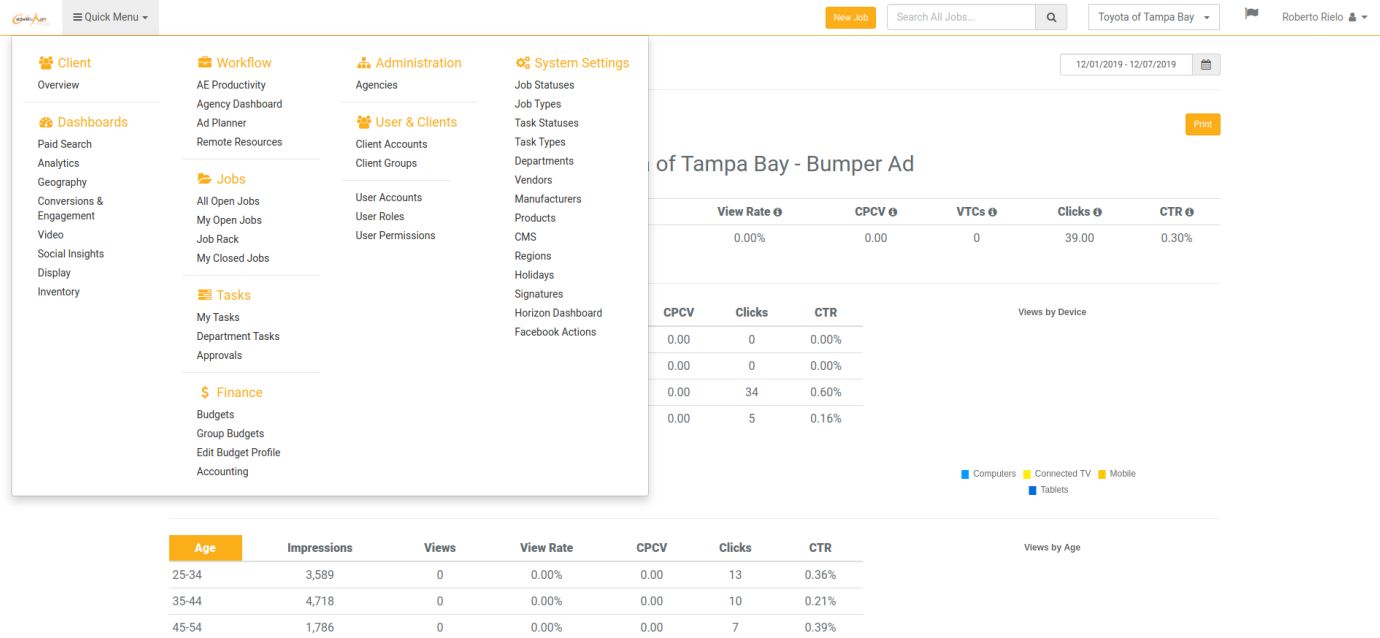

WORK EXPERIENCE / DEVELOPED SYSTEMS

DASH – Advertising Platform Dashboard.

Url: <https://staging.auto-dash.com>

Description: Dash application allows the Sales team to be able to track all the budgets that the clients want to spend in every single advertising platform such as Google (Adwords and Analytics), Facebook API, BingAds, etc. Also, we use the software to pull the campaign and ads information and create reports to analyze the data behavior, in that way, we can create new and more effective campaigns.

Technologies: Framework Laravel 8, NuxtJs, HTML5, CSS3, Bootstrap v4.
